From the start I've loved Happy Bunnies! They are super sweet and love my baby well! As a first time mom, I was super nervous about sending my 5 month old to daycare but I've been so pleased with how well they love him and take care of him. Most importantly, they're incredibly communicative and make me feel comfortable to ask questions and they always keep me in the loop. I'm really happy to have found a place that I feel good knowing my little guy is in good hands.

My 4 and 2 years old children started at happy Bunnies in October 2021 when we moved in Austin. We just love it, Magdalena and her team of teachers always have an eye everywhere and have a great communication with us about everything concerning our kids. I appreciated that they let me stay as long as I felt it was necessary for my tiniest one the first week for her to be at ease in this whole new adventure. They love our children and they teach them a lot everyday. They did change their organisation recently and I find it even greater.

I really recommend this school 🥰 I'm thankful for everything they did for my daughter. Amazing teachers and supervision. Maximum safety place, CCTV cameras are everywhere. Really helpful staff, my daughter got maximum attention for adaptation period. So many wonderful activities, holidays celebrations for children, a big playground and cozy classroom with many toys. I really appreciate a chance to be a part of this happy bunnies family 🙌 Thank you for everything 🍀

We've had a great experience at Happy Bunnies daycare! Our son started in the infant room at 4 months old (I cried my eyes out the entire first week and they were very comforting and understanding). His teacher, Desiree has taken the best care of him and has been wonderful about communicating directly with us about all the things - feedings, development, napping, sickness, etc. We requested we get more details about his day (activities, play time, development) and Des always wrote the best daily notes and sent us great pictures of him playing with his friends. I looked forward to those daily notes every day!

The owner, Magdalena has been wonderful. Very accommodating and so easy to talk to about anything. They are very flexible about schedules which I really value and appreciate! The only reason we moved him is to enroll him in Spanish Immersion school, otherwise, we would have kept him here for years.

We have been at Happy Bunnies since the beginning of the year and couldn't be happier. My two kids started at 2yo and 6mo and have loved every moment. I have never seen them cry at drop off or pick up and they seem genuinely happy and engaged when I pull up and I can observe them before they see me. They are kept busy all day with activities, songs, stories and come home with new words and skills daily. The teachers are phenomenal and know my kids well and provide me with info and details on their growth through the app along with photos. I wish we could stay at Happy Bunnies forever, we recently bought a home that brings us out of their area but I seriously considered some less than ideal houses just to stay with happy bunnies!!! They are that great! Highly recommend. Magdalena, the owner, loves the facility and family she has built and you can tell as she is always there and knows all the kids and spends time with parents.

I cannot say enough good things about Magdalena and the team at Happy Bunnies!! I have an almost 2 and almost 5 year old... both started around 3 months old. The school changed from Child's Way to Happy Bunnies when we spent a year away from Texas. Thankfully they had space for my oldest when we returned. I immediately put my youngest on the waitlist to ensure I had a spot! My daughters both love it and learn so much there! I know they are loved and cared for by the staff! Magdalena is also a wealth of knowledge and so helpful for me as a parent. I've been having some growing pains with my oldest and Magdalena has offered suggestions that have really helped!! She is a mom herself so she understands and is so comforting!

As a first time mom, I was super anxious about putting my son in daycare. The staff of Happy Bunnies, specifically Alina and Magdalena, helped ease my anxiety. When I first started, I was assured they are all moms and totally understand the mom anxiety. The staff know each of the children they take care of and it's evident how much they care. My son has trouble taking naps and Alina and the assistants were so great about staying in touch about how his naps were going as well as working with us in regards to our home nap process. Due to covid, we are taking a break but cross our fingers they will have a spot upon our return. I am so sad because my son had fun and made friends. Alina is the best. Highly recommend!

Happy Bunnies is filled with a genuine and loving staff which makes this mom feel so lucky. My toddler is so happy every morning at drop off and is thriving in his class. The owner and teachers have gone above and beyond with compassion and care for my family. I could not recommend this place more!

My kid was loved and cared for at this day care. She hasn't cried going to day care, enjoys every day, returns home happy and learns a lot. The director is very supportive and cooperative to our needs and concerns. It is a quality care at affordable price. Highly recommend for all working parents !

I cannot say enough good things about the team at Happy Bunnies. As a first time mom, dropping off my 3 month old for the first time was the scariest moment of my life. The regular updates and the loving care she gets at Happy Bunnies have made these 6 months with them (my daughter is now 9 months old) a dream. There is nothing better than knowing I am leaving her with people who care!
